SAFETY DATA SHEET

ECO CLEAN Aroma Therapy Conditioner

Product code: D11114

Version 1 | Issue date 2026-10-26 | Supersedes Earlier SDS, unnumbered

SECTION 1. IDENTIFICATION

Product identifier

Product name ECO CLEAN Aroma Therapy Conditioner

Other means of identification EcoClean Aroma Therapy Conditioner, Tea Tree and Lavender; Aromatherapy Conditioner

Product code	Package	Net contents	UPC
D11114	Pail	5 US gal (18.93 L)	787302111145

Recommended use and restrictions on use

Recommended use Rinse-off hair conditioner for personal care, for refilling dispensers and bottles in hotels, gyms, spas and other facilities. Use undiluted: after shampooing, apply to wet hair, leave on briefly, then rinse well.

Restrictions on use For external use only. Avoid contact with the eyes; if contact occurs, rinse the eyes thoroughly with water. Stop use and ask a doctor if irritation or rash appears and lasts. Keep out of reach of children. Do not mix with other cleaning products or chemicals.

Manufacturer or supplier

Company Gascó Industrial Corp.

Address Calle A Lote 3, Rincón Industrial Park, Gurabo, PR 00778

Mailing address PO Box 1360, Gurabo, PR 00778

Telephone (787) 737-4000

Email orders@gascoindustrial.com

Website www.gascoindustrial.com

Emergency telephone number

Poison Control 1-800-222-1222 (24 hours)

SECTION 2. HAZARD(S) IDENTIFICATION

Classification of the chemical

This product is not classified as hazardous under the OSHA Hazard Communication Standard, 29 CFR 1910.1200.

Label elements

Pictograms Not applicable

Signal word Not applicable

Other hazards

Hazards of chemical reaction products None known

Hazards not otherwise classified (HNOC) None known

Other hazards which do not result in classification Direct contact with the eyes may cause temporary irritation. Spilled product makes floors slippery.

Unknown acute toxicity Approx. 21%, 22% and 33% of the mixture consist of ingredients of unknown acute oral, dermal and inhalation toxicity, respectively.

SECTION 3. COMPOSITION/INFORMATION ON INGREDIENTS

Substance or mixture Mixture

Chemical name	CAS number or other identifier	Concentration (%)	GHS classification
Lavender oil	8000-28-0	0 to 1 (w/w)	Flammable liquids, Category 4 (H227); Skin corrosion/irritation, Category 2 (H315); Serious eye damage/eye irritation, Category 2A (H319); Skin sensitization, Category 1 (H317); Aspiration hazard, Category 1 (H304); Hazardous to the aquatic environment, long-term hazard, Category 3 (H412)

Chemical name	CAS number or other identifier	Concentration (%)	GHS classification
Tea tree leaf oil	68647-73-4	0 to 1 (w/w)	Flammable liquids, Category 3 (H226); Acute toxicity (oral), Category 4 (H302); Skin corrosion/irritation, Category 2 (H315); Serious eye damage/eye irritation, Category 2A (H319); Skin sensitization, Category 1B (H317); Aspiration hazard, Category 1 (H304)
Water	7732-18-5	Balance	Not classified

The product is a water-based cream hair conditioner, purchased finished and sold as is. The manufacturer's Safety Data Sheet for the conditioner could not be obtained, so the composition ranges are estimated from the ingredient list on the product label and the published data for its conditioning ingredient (brassicyl isoleucinate esylate and brassica alcohol), which its manufacturer does not classify as hazardous. The ingredients declared on the label are, in order: water, brassica alcohol, cetyl alcohol, glycerin, brassicyl isoleucinate esylate, squalane, lavender oil, oat kernel extract, arnica flower extract, hydrolyzed quinoa protein, tea tree leaf oil, gluconolactone and honeysuckle flower extracts. Lavender oil and tea tree leaf oil are listed above because they are classified in their pure form; they follow squalane on the label and are estimated at 1% or less each. No other ingredient classified as hazardous has been identified. The product as a whole is not classified as hazardous. Concentrations are percent by weight.

SECTION 4. FIRST-AID MEASURES

Inhalation Not an expected route of exposure. If mist is inhaled and irritation occurs, move the person to fresh air.

Skin contact Rinse skin with water. If irritation or a rash occurs, get medical attention.

Eye contact Rinse the eye gently with water for 15 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing. Get medical attention if irritation persists.

Ingestion Rinse mouth with water. If the person is able to swallow, have the person sip a glass of water. Do not induce vomiting unless told to do so by Poison Control or a doctor. Never give anything by mouth to an unconscious person. Call Poison Control at 1-800-222-1222 or a doctor for treatment advice.

Most important symptoms and effects, acute and delayed Eyes: redness, tearing and stinging. Skin: in sensitized persons, itching and rash, which may appear hours after contact. Ingestion: nausea and stomach discomfort.

Immediate medical attention and special treatment Treat symptomatically. Have the product container or this Safety Data Sheet with you when calling Poison Control or a doctor, or going for treatment.

SECTION 5. FIRE-FIGHTING MEASURES

Suitable extinguishing media Use media suitable for the surrounding fire. The product is a water-based emulsion and is not flammable.

Unsuitable extinguishing media None known

Specific hazards arising from the chemical The product is a water-based emulsion and has no flash point. If the water evaporates in a fire, the residue may burn and release carbon monoxide, carbon dioxide, nitrogen oxides and sulfur oxides.

Special protective equipment and precautions for fire-fighters Wear positive-pressure self-contained breathing apparatus and full protective fire-fighting gear. Cool containers exposed to fire with water spray. Contain runoff from fire control.

SECTION 6. ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment and emergency procedures Avoid contact with eyes. Wear the safety glasses listed in Section 8 when cleaning up large spills. Spilled product makes floors slippery.

Environmental precautions Prevent large spills from entering drains, sewers and waterways.

Methods and materials for containment and cleaning up Stop the leak if it can be done without risk. Wipe up small spills with a damp cloth or mop. Absorb larger spills with inert material such as sand, earth or absorbent pads and place it in a closed container for disposal. Rinse the area with water.

SECTION 7. HANDLING AND STORAGE

Precautions for safe handling Avoid contact with eyes. Wear safety glasses when handling the product in bulk, such as when filling dispensers or cleaning up spills. Use only as a hair conditioner, as directed on the label, and rinse hair well after use. Do not mix with other cleaning products or chemicals.

Conditions for safe storage, including any incompatibilities Store in the original container, tightly closed, in a cool, well-ventilated area out of direct sunlight, at 15 to 30 °C (59 to 86 °F). Protect from freezing. Keep out of reach of children. Keep away from strong oxidizing agents, such as bleach.

SECTION 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Occupational exposure limits

No component of this product has an established occupational exposure limit.

Exposure controls and personal protective equipment

Other exposure guidelines	No ingredient listed in Section 3 has an OSHA, ACGIH or NIOSH exposure limit. The product does not evaporate to a significant extent, and exposure to airborne ingredients is not expected in normal use.
Engineering controls	General ventilation is adequate for use as directed.
Eye and face protection	Wear safety glasses with side shields when handling the product in bulk, such as when filling dispensers or cleaning up spills. When using the product as directed, keep it away from the eyes.
Hand protection	Not required for use as directed. Wear gloves, such as nitrile rubber, for prolonged or repeated contact when handling the product in bulk; stop use if irritation or a rash appears.
Body protection	No special protective clothing is required.
Respiratory protection	Not required.
General hygiene	Rinse hair and skin well after use. Wash hands after handling the product in bulk.

SECTION 9. PHYSICAL AND CHEMICAL PROPERTIES

Physical state	Viscous liquid (cream)	**Color**	White
Odor	Lavender and tea tree (herbal)	**Odor threshold**	No data available
Melting point/freezing point	Approx. 0 °C (32 °F)	**Initial boiling point and boiling range**	Approx. 100 °C (212 °F)
Flammability	Not flammable	**Flammability limits in air**	Not applicable
Flash point	No flash point (water-based emulsion)	**Auto-ignition temperature**	Not applicable (water-based emulsion)
Decomposition temperature	No data available	**pH**	4.0 to 7.0 (undiluted)
Kinematic viscosity	No data available	**Solubility in water**	Dispersible
Partition coefficient n-octanol/water (log value)	No data available		
Vapor pressure	Approx. 2.3 kPa (17.5 mmHg) at 20 °C (68 °F), mainly water		
Evaporation rate	No data available	**Density**	No data available
Relative density (water = 1)	No data available	**Relative vapor density (air = 1)**	Approx. 0.6, as water vapor
Particle characteristics	Not applicable		

SECTION 10. STABILITY AND REACTIVITY

Reactivity	No hazardous reactions are known under normal conditions of storage and use.
Chemical stability	Stable under recommended storage and handling conditions.
Possibility of hazardous reactions	None known. Hazardous polymerization does not occur.
Conditions to avoid	Freezing, temperatures above 30 °C (86 °F) and mixing with other chemicals.
Incompatible materials	Strong oxidizing agents, such as bleach.
Hazardous decomposition products	None under normal conditions of storage and use. Burning of the dried residue: carbon monoxide, carbon dioxide, nitrogen oxides and sulfur oxides.

SECTION 11. TOXICOLOGICAL INFORMATION

Likely routes of exposure	Skin contact, eye contact and ingestion.
Symptoms	Eyes: redness, tearing and stinging. Skin: in sensitized persons, itching and rash. Ingestion: nausea and stomach discomfort.
Delayed and immediate effects and chronic effects	Immediate: temporary eye irritation on direct contact. Delayed: an allergic skin reaction may appear in persons already sensitized to fragrance allergens. Chronic: none known.
Acute toxicity	Not classified. The information in this section is based on the composition estimated from the label ingredient list and the published data for the conditioning ingredient, because the manufacturer's Safety Data Sheet for the conditioner could not be obtained; no toxicity test data are available for the product.
Acute toxicity estimates (ATE)	Calculated from the estimated composition: oral greater than 5,000 mg/kg; dermal greater than 5,000 mg/kg. Inhalation: no data available. Not classified.
Skin corrosion/irritation	Not classified, based on the estimated composition. Lavender oil and tea tree leaf oil irritate the skin in their pure form; each is estimated at 1% or less in the product.

Serious eye damage/eye irritation	Not classified, based on the estimated composition. Direct contact may cause temporary irritation.
Respiratory or skin sensitization	Not classified (skin and respiratory). Lavender oil and tea tree leaf oil, listed in Section 3, are skin sensitizers in their pure form and contain fragrance allergens; each is estimated at 1% or less in the product. Persons already sensitized to these fragrance allergens may react.
Germ cell mutagenicity	Not classified
Carcinogenicity	Not classified. No ingredient declared on the label is listed as a carcinogen or potential carcinogen by NTP, IARC or OSHA.
Reproductive toxicity	Not classified
Specific target organ toxicity, single exposure	Not classified
Specific target organ toxicity, repeated exposure	Not classified
Aspiration hazard	Not classified (viscous cream).
Interactive effects	None known

Component data: Lavender oil

Skin corrosion/irritation	Irritating to skin (pure oil, Category 2)
Serious eye damage/eye irritation	Irritating to eyes (pure oil, Category 2A)
Skin sensitization	Sensitizing (pure oil, Category 1); contains linalool and linalyl acetate
Aspiration hazard	Category 1 (pure oil)

Component data: Tea tree leaf oil

Acute toxicity estimate, oral	1,900 mg/kg (pure oil)
Skin corrosion/irritation	Irritating to skin (pure oil, Category 2)
Serious eye damage/eye irritation	Irritating to eyes (pure oil, Category 2A)
Skin sensitization	Sensitizing (pure oil, Category 1B)
Aspiration hazard	Category 1 (pure oil)

SECTION 12. ECOLOGICAL INFORMATION

Component data: Lavender oil

Aquatic hazard, pure oil	Long-term (chronic) Category 3 (H412) in one supplier SDS; no test data available

Component data: Tea tree leaf oil

Aquatic hazard, pure oil	Not classified in the supplier SDSs; no test data available

Persistence, bioaccumulation, mobility and other effects

Ecotoxicity	No data available for the product. The assessment is based on the composition estimated from the label ingredient list and the published data for the conditioning ingredient, because the manufacturer's Safety Data Sheet for the conditioner could not be obtained. The conditioning ingredient is not considered harmful to aquatic organisms by its manufacturer. Essential oils such as lavender oil may be harmful to aquatic life; each is estimated at 1% or less in the product.
Persistence and degradability	No data available for the product. The conditioning ingredient (brassicyl isoleucinate esylate and brassica alcohol) is readily biodegradable, according to its manufacturer.
Bioaccumulative potential	No data available. Not expected to bioaccumulate.
Mobility in soil	The product disperses in water.
Other adverse effects	Based on its estimated composition, the product does not meet the GHS criteria for the aquatic environment hazard classes. Do not release undiluted product to surface water, storm drains or waterways.

SECTION 13. DISPOSAL CONSIDERATIONS

Waste treatment methods	Dispose of contents and container in accordance with local, state and federal regulations. Do not discharge undiluted product to storm drains or waterways.
RCRA waste code	None. When discarded unused, the product is not a listed hazardous waste and has no hazardous waste characteristic: it is not ignitable (D001: no flash point), not corrosive (D002: pH 4.0 to 7.0) and not reactive, and it contains none of the toxicity characteristic contaminants of 40 CFR 261.24.
Contaminated packaging	Do not reuse empty pails, especially for food or drink. Rinse empty containers with water and dispose of them in the trash or as local regulations allow.

SECTION 14. TRANSPORT INFORMATION

	DOT (US ground)	IMDG (sea)	IATA (air)
UN number	Not regulated	Not regulated	Not regulated
UN proper shipping name	Not applicable	Not applicable	Not applicable
Transport hazard class	Not applicable	Not applicable	Not applicable
Packing group	Not applicable	Not applicable	Not applicable
Hazard labels	Not applicable	Not applicable	Not applicable
Marine pollutant	No	No	Not applicable
Notes	Not regulated as a hazardous material.	Not regulated. Not a marine pollutant.	Not regulated.

Packages Plastic pail of 5 US gal (18.93 L).

Emergency response guide Not applicable

Transport in bulk according to MARPOL Annex II Not applicable (shipped in packages, not in ship tanks)

Special precautions for user Keep pails upright and closed. Protect from freezing.

SECTION 15. REGULATORY INFORMATION

OSHA hazard communication This product is not classified as a hazardous chemical under 29 CFR 1910.1200.

FDA Regulated as a cosmetic under the Federal Food, Drug, and Cosmetic Act. Under 29 CFR 1910.1200(b)(5)(iii), the container label follows the FDA cosmetic labeling requirements instead of the OSHA label requirements.

TSCA inventory As a cosmetic, the product is excluded from the definition of chemical substance under TSCA.

SARA 302 extremely hazardous substances Not listed

SARA 311/312 hazard categories None (not classified as hazardous).

SARA 313 toxic chemicals No ingredient declared on the label is subject to the supplier notification requirements of 40 CFR 372.

CERCLA reportable quantity No ingredient declared on the label is a CERCLA hazardous substance.

California Proposition 65 No ingredient declared on the label is on the Proposition 65 list.

SECTION 16. OTHER INFORMATION, INCLUDING DATE OF PREPARATION OR LAST REVISION

Date of preparation or last revision

Issue date 2026-10-26

Version 1

Date of first issue 2026-10-26

Supersedes Earlier SDS, unnumbered

Hazard ratings

NFPA 704

HMIS

Health	1
Flammability	0
Physical hazard	0
Personal protection	B

NFPA 704 ratings run from 0 (minimal hazard) to 4 (severe hazard). HMIS rating scale: 0 minimal, 1 slight, 2 moderate, 3 serious, 4 severe. The HMIS personal protection letter refers to the HMIS equipment index.

NFPA 704 and HMIS ratings are provided for reference only and are not part of the GHS classification.
